You can upload any type of file (movies, music, documents, images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You don't need any special software installed to be able to download your files. Our service is completely free for everyone. If only we could, we surely would! On the other hand, using file can actually save you money. Alternatively you can choose to share your download links on blogs, forums andsocial networking sites. It is also allowed to link to the download page from websites and communities. When you use file, you avoid storing the file you'resending in your cloud storage or mail server. Using file, you can circumvent those limits without paying to upgrade your team chat service. Files can bedownloaded from any computer from our high speed servers. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file,data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Any file in any format can be uploadedand downloaded for free. No account or credit card is required to get started. File is free to use with no gotchas and no hidden fees. You can give this downloadlink to your friends by mail or instant messenger. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to your file. The cost of that data transfer is covered by yourinternet service or the data plan on your phone. Unfortunately, we can't make that part free. There are no restrictions on the number of times a file can
