Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. filehosting provides an easy possibility for you to send large files to your friends. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internet service or the data plan on your phone. Unfortunately, we can't make that part free. Our service is completely free for everyone. It is also allowed to link to the download page from websites and communities. Alternatively you can choose to share your download links on blogs, forums and social networking sites. There are no restrictions on the number of times a file can be downloaded. So tryour free and simple filehosting service now. We have no file size limit. No account or credit card is required to get started. You can give this download link toyour friends by mail or instant messenger. You decide who you want to share your files with. You can upload any type of file (movies, music, documents,images, zip files and more). Using file, you can circumvent those limits without paying to upgrade your team chat service. Just upload the file you want to sharewith your friends and we send you a download link to your file. Simply upload your file and share the link. Files transferred the old-fashioned way tend to pileup and be forgotten about, eventually costing you money in data storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When youshare a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Any file in any format canbe uploaded and downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You don't need any specialsoftware installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many
